REASONS FOR ALLOWANCE

1. Claims 1-19 and 26 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to teach and/or suggest a system for ultrasonically testing a tubular comprising, in combination with the other recited elements, a carrier unit movably positional along the surface of the tubular and an ultrasonic transducer mount unit movably positional along the carrier unit to outer regions of the carrier unit extendable beyond the opposite ends of the tubular.

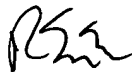

The closest prior teaches testing the end of the pipes either by clamping a carrier unit near the end of the pipe and extending the ultrasonic test unit beyond the end of the tubular (as is done when testing welds or curved pipes) or by electronically separating the testing signals from the end portion of the tubular by ignoring extraneous signals from the outer portion of the tubular as the ultrasonic testing unit approaches the end of the tubular. And while the prior art does teach testing the end of the tubular by sending the tubular through the center of an ultrasonic testing system, there is no teaching or suggestion of a carrier unit that allows for the ultrasonic transducers to be extended beyond the end of the tubular such that the tubular can be fully inspected in a single pass while additionally allowing the ultrasonic transducers to be moved along the length of the tubular in order to test the tubular between the ends.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rose M. Miller whose telephone number is 571-272-2199. The examiner can normally be reached on Monday - Friday, 7:30 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on 571-272-2208. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
